

Rules of the Road & Bicycle Safety Tips

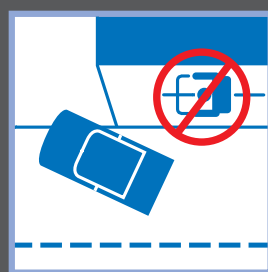

RIDE ON THE RIGHT

- Ride on the right side of the road, in the same direction as traffic, at a safe distance from the curb and gutter
- Never ride against the flow of traffic

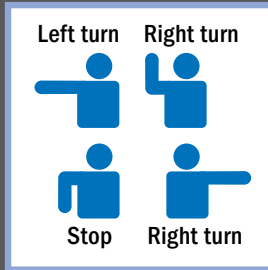

BE ALERT

- Watch for cars pulling out and use caution when approaching driveways and parked cars
- Assume that drivers do not see you, and use caution when approaching them

STAY OFF SIDEWALKS

- Sidewalks are designed for pedestrians and not for bicyclists who are traveling faster than walking speeds
- Ride where motorists expect you to be

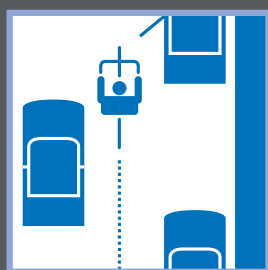

USE HAND SIGNALS

- Hand signals communicate with motorists what you intend to do; turns require a hand signal for 100 feet beforehand

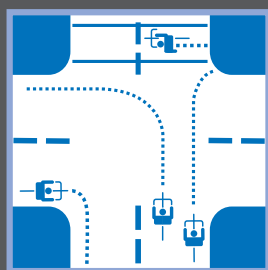

BE VISIBLE & DRESS APPROPRIATELY

- By law, bicycles riding at night must have a white headlight in the front, visible from at least 500 feet away and a red tail reflector visible in a vehicle's low beams from 300 feet away
- Wear bright clothing during the day and reflective clothing at night
- Always wear a hard-shell helmet whenever you ride; fit the helmet so the front is just above the top of the eyebrows

RIDE IN A STRAIGHT LINE

- Maintain a car door's width away from parked cars
- Avoid dodging in between cars
- Watch for parked motorists swinging their doors open

TWO WAYS TO TURN LEFT

- 1) Like a pedestrian, ride straight to the far-side crosswalk and walk your bike across
- 2) Like a motorist, signal, move into the left lane and turn left

Traveling Around the Valley

Getting around by bicycle continues to get easier with the growing number of bicycle facilities throughout the valley. The Regional Transportation Commission of Southern Nevada (RTC), in cooperation with local governments, community partners and citizens, has made great strides towards making bicycling more viable and convenient as a mobility choice. Currently, there are more than 100 miles of bicycle routes, and nearly 400 miles of bicycle lanes and shared-use paths in the valley with the addition of many more planned for the future.

Bicycle with Transit

Bicycling is a great way to access the valley's transit system and cross long distances in true comfort. All RTC buses are equipped with bicycle racks, most with room for three. The RTC's public transit system carries more than 50,000 bikes each month. There is no additional cost to bring your bicycle along for the ride.

Club Ride

Club Ride Commuter Services is the RTC's free program for employers and commuters to reduce traffic congestion and improve air quality. Through a variety of incentives including a monthly rewards program, membership benefits such as the discounted EZ Rider Transit Pass and Guaranteed Ride Home programs, and exclusive discounts available at a variety of local merchants, Club Ride encourages commuters to try new ways to get to work including walking, bicycling, riding transit, carpooling and more. We invite you to be a part of the movement. Learn more at rtcsonv.com/ClubRide.

RTC Bike Center

Located inside the Bonneville Transit Center (BTC) in downtown Las Vegas, the RTC's Bike Center is a full service bike shop and repair facility that provides free indoor parking for up to 75 bikes at a time. Members who pay for premium membership also have access to lockers, restrooms and private showers that are secured for their exclusive use and located within the Bike Center.

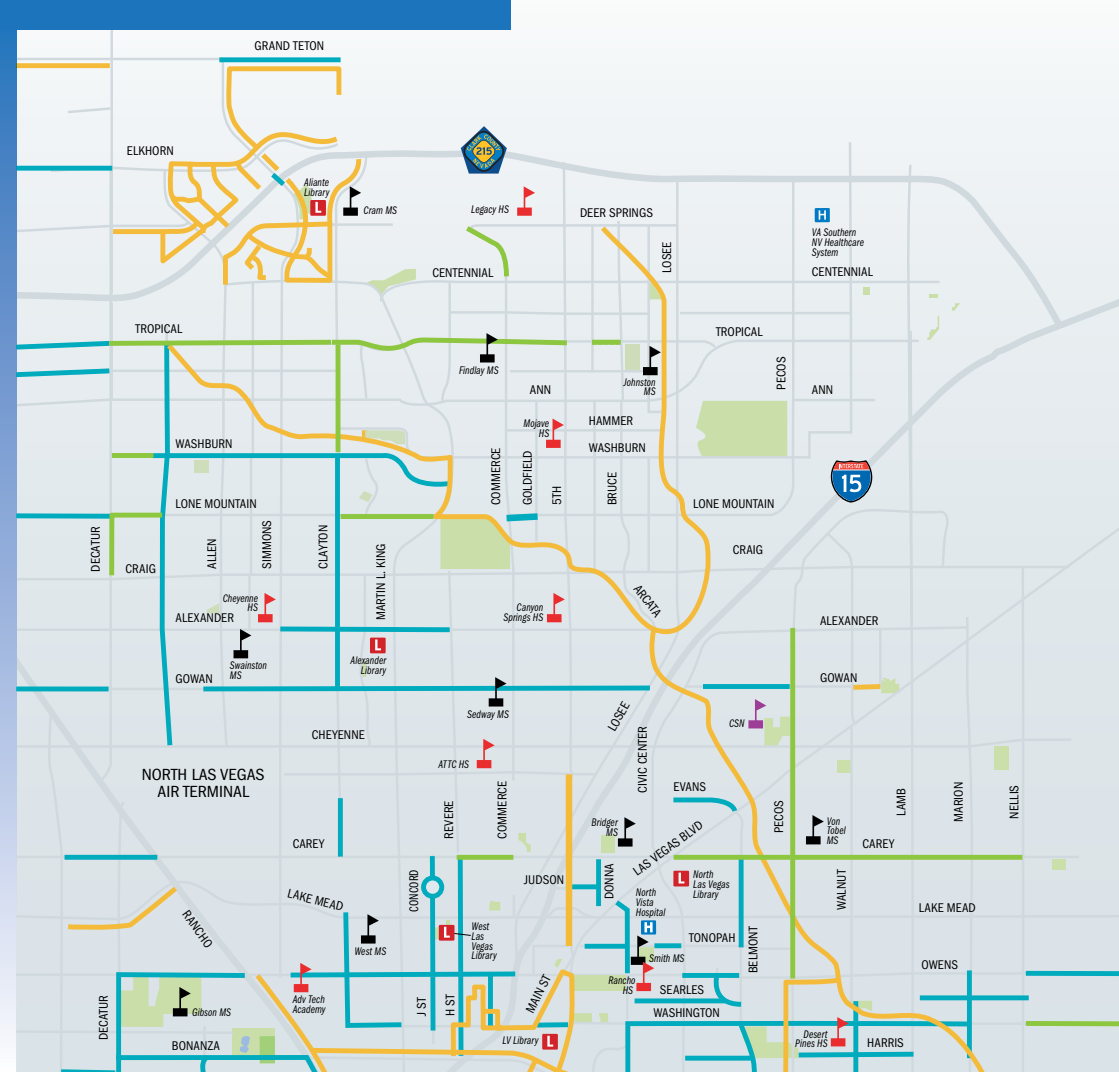

The Bike Center is open Monday through Saturday, 7 a.m. to 7 p.m.
Visit rtcsonv.com for more information.
